

Municipal District of Bonnyville Media Release M.D. and Town Pass Intermunicipal Development Plan

July 11, 2017 – At a joint Council meeting held July 4, The Municipal District of Bonnyville and the Town of Bonnyville passed bylaws for the Bonnyville Intermunicipal Development Plan (IDP).

The IDP was prepared for the M.D. and the Town by Stantec Consulting. Work on the IDP began last September.

The joint Council meeting was started with a Public Hearing for affected residents to speak for or against the plan. Council members answered questions and addressed concerns from the small gathering of residents before giving the bylaws second and third reading.

The Intermunicipal Development Plan will help guide the municipalities when dealing with building, development and zoning on lands that share a border.

The final copy of the Bonnyville IDP is available online at
