

M.D. Recreational Facilities Policy

3B.003

Section: 3.0 Planning and Community Services
- B. Parks and Recreational Services

Authority: General Manager of Planning and Community Services

Statement

The Municipal District of Bonnyville (M.D.) considers its recreational facilities to be valuable assets and shall ensure the regulation and governance of the costs and fees for use. Further, the municipality shall establish an inspection and maintenance schedule for recreational facilities.

Purpose

To ensure the correct application of deposits and fees and to assist in providing safe recreational facilities that are accessed by the public.

Definitions

For the purposes of the policy:

- (1) "Recreational Facilities" means the parks, ball diamonds, picnic tables, playgrounds, trails, boat launches and boat docks that are owned by the M.D.

Procedure

Rate amounts related to recreational facilities are as outlined in *Attachment A* and *Attachment B*. All reservations are on a 'first come, first serve' basis. Any promotional rates offered for recreational facilities must be approved by Council. Council will review the attached price schedules once per year by June 30 for the following year's fees.

Inspection and maintenance schedules for certain park areas will be implemented by the municipality's associated department subject to budgetary constraints and manpower/equipment availability.

- (1) Campground Fees
 - (a) If cancellation occurs prior to 72 hours of the intended reservation the full amount will be refunded minus one night. If cancellation occurs less than 72 hours the full amount will be withheld.
 - (b) All reservations are to be paid for in advance at the time of booking.
- (2) Ball Diamonds – Deposits and Fees

All tournaments booked at an M.D. ball diamond shall require a damage deposit. The municipality will subtract from the deposit for the following expenses resulting from the tournament:

 - (a) \$20.00 dollars per hour for each staff member to clean up debris.
 - (b) Cost of supplies to repair any damages and labor to diamonds or other amenities.
- (3) Picnic Tables – Deposits and Fees

A damage deposit charge shall be applied on all picnic table rentals. Non-profit organizations will have a damage deposit maximum capped rate (see *Attachment A*). The municipality requires 24 hours notice for drop off or pick up of picnic tables.

(4) Recreational Facilities – Inspections and Maintenance

- (a) All inspections shall be:
 - (i) documented and retained on file;
 - (ii) signed and dated by a qualified Inspector (when applicable).
- (b) Original inspections will be completed in ink using the attached Inspection Checklists, dated and signed by the inspector, and shall be submitted to the Director of Parks, Recreation and Culture within seven (7) days of the inspection.
- (c) All required follow-up repairs and/or maintenance will be noted under “Action Required” on the inspection form and will be the responsibility of the Parks Manager.
 - (i) Any hazards on a playground inspection listed as A1 (immediate danger to life) will be resolved immediately.
- (d) Safety hazards deemed critical by the Director of Parks, Recreation and Culture shall be completed as soon as is reasonably possible. Areas or equipment with identified safety hazards shall be closed until proper repairs are carried out.
- (e) Weekly inspections will be completed on ball diamonds and trails subject to budgetary constraints and manpower/equipment availability. Monthly inspections will be completed on campgrounds and playgrounds subject to budgetary constraints and manpower/equipment availability.
- (f) Inspections will be reviewed by the Director of Parks, Recreation and Culture and/or the Parks Manager to attempt to identify any trends or areas of concern.
- (g) An annual report will be prepared detailing results of the inspection program.
- (h) Inspectors will be persons trained to complete this task and may include volunteers.

(5) Unplayable Fields

- (a) M.D. ball diamonds will be considered unplayable if the following conditions exist:
 - (i) ponding of water on the surface of ball diamonds;
 - (ii) water sponging up around your feet when walking on the diamonds;
 - (iii) weather conditions such as lightning and thunderstorms.

If any of these conditions occur, the ball diamonds will be considered unplayable and the practice and/or game are to be rescheduled. While the M.D. will use the above conditions to close fields, the M.D. continues to have exclusive rights to cancel any games due to any reason deemed acceptable by the M.D.

- (b) If a user arrives at a field and the above conditions exist or if these conditions develop during the course of a game, they are asked not to play on the diamond. Factors must be considered including the safety of the participants, the possibility of liability through incident or injury and the expense of diamond repair and maintenance.

If a user ignores the unplayable conditions:

- (i) The user will be required to pay for all damages to the ball diamond arising from abuse to the facility;
- (ii) The user will be held liable and responsible for incidents or injuries incurred because of unsafe conditions; and

- (iii) The user will have their right to play on the M.D. diamonds suspended or revoked for any future use.

When severe or threatening weather is imminent, users shall immediately move to a safe location- away from metal structures, tall structures and out of the open field.

(6) Playground Installations

- (a) A certified playground inspector will review the blue print and installation instructions prior to purchase to ensure CAN/CSAZ614-07 standards are being followed.
- (b) All play structures must be installed according to manufacturers design instructions and have a certified playground inspector on site during periods of playground installation.
- (c) Protective surfacing choice and retaining wall dimensions must be reviewed and approved by a certified playground inspector prior to installation.
- (d) Protective surfacing and retaining wall must be properly installed before playground's first use.
- (e) A "Playground Equipment Compliance Inspection and Inventory Report" must be completed prior to playground's first use.
- (f) The M.D. will only be responsible for future maintenance, signage, and inspection of playgrounds on Municipal Reserve's and campgrounds.

(7) Kinosoo Ridge Snow Resort

- (a) Kinosoo Ridge Snow Resort will be closed to the public if temperatures are at or below -32 degrees Celsius ambient temperature and/or wind chill.
- (b) Alcohol will be allowed only within designated areas of Kinosoo Ridge Snow Resort.
- (c) Impaired individuals will be refused service and may have their lift tickets revoked.
- (d) Back packs will not be allowed on any of the runs or lifts.

Review Period

Within five (5) years from date adopted / amended / reviewed.

For administrative use only:
