

# RECYCLE

Products that are made out of paper, plastic, and cardboard are examples of what you can recycle as well as glass containers and tin cans and lids. Containers should be empty and rinsed out. Place shredded paper and small recyclables in a recyclable transparent blue bag. Cardboard boxes should be folded and flattened before putting them in the recycle bins.

## What you *can* take to your recycle center at the landfill:

- Hard rigid household plastics
- Paper products (ex: gift wrap, paperback books, office paper, newspaper)
- Glass (ex: food and beverage bottles)
- Metal (ex: beverage, food, soup, lids)
- Cardboard and boxboard (ex: cereal boxes)
- Large items such as metal, concrete, toilets, and tires

## Collection Days:

**Country Lane/Side Estates: Waste (cart) every TUESDAY**

**Emerald Estates: Waste (cart) every TUESDAY**

**Fort Kent/Ardmore: Waste (cart) every TUESDAY.**

**Carts must be at the curb by 7:00 a.m. collection day to guarantee collection.**

**You can put your cart out the night before — after 7:00 p.m.**

The carts are part of the Municipal District of Bonnyville's Solid Waste Transition Plan to make it easier for residents to manage their waste and protect the environment.

The carts themselves are assigned to each residence (not to each owner) at no charge, but a waste collection fee of \$15/month will be charged to the property owner on a bi-monthly basis. It is the property owner's responsibility to properly use, store, and take care of the cart. Each cart has a tracking device to help us identify damaged or lost carts.

There will be non-compliance charges for damage and misuse of the cart.

**The carts are for BAGGED HOUSEHOLD WASTE ONLY.**

### How to Use Your Carts

See page 3 for detailed instructions. For pest control and product containment, please keep the cart lid closed. Because collection is automated, it is very important that you follow the collection day cart placement instructions. **Your cart will not be picked up if the cart is not positioned on the street properly.**

### Who to Contact

If you have any questions, or your cart is damaged or lost call Brad Ollen, Manager of Waste Services at **780-826-3951 ext. 9323** or email [bollen@md.bonnyville.ab.ca](mailto:bollen@md.bonnyville.ab.ca). More information is also available on our website at [www.md.bonnyville.ab.ca](http://www.md.bonnyville.ab.ca)

*Help make your community a better,  
cleaner place!*

# Guidelines and Cart Information:

*Your future begins with you!*

Automated waste collection is a safer, cleaner, and more efficient way to take out the trash, saving residents valuable time and money.

**Carts must be at curbside by 7:00am on your day of collection (Tuesday) to guarantee pick up. (You can set them out the night before).**

Please pull your empty cart back onto your property no later than 9:00 p.m. If your cart isn't emptied on your collection day, please leave it out and it will be collected by Friday of that week.

## GUIDELINES FOR WASTE PICKUP:

- Do not overfill your cart—the lid on the cart should fully close on its own.
- Do not pack or cram material into the cart, this will cause bags to become stuck.
- Do not leave materials outside of carts such as extra garbage bags. These items will not be picked up.
- Do not place loose waste in the cart. Please bag all waste before placing it in the cart.

## WHAT ARE YOUR RESPONSIBILITIES?

You are responsible for your cart. Make sure to store it in a shaded or covered area whenever possible, as well as to periodically wash it out. This will help eliminate potential odours and keep carts tidy. Please do not write, spray paint, or make permanent marks on the carts. Our digital reader enables us to determine which address each cart belongs to.

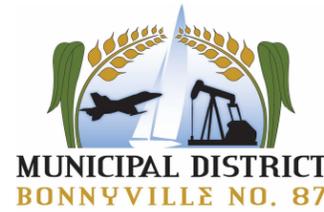

## HELPER INFORMATION:

Each cart has a serial number as well as a RFID (Radio Frequency Identification Device), which helps the M.D. keep track of all the carts.

## MOVING?

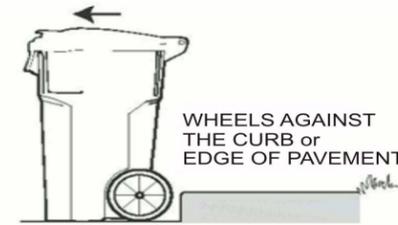

The carts belong to the M.D. of Bonnyville and are assigned to each address, not the individual person. Please do not take your cart with you when you move. If you require a new cart at your new residence where this service is provided please call 780.826.3951 ext. 9323.

**Any questions call 780.826.3951 ext. 9323**

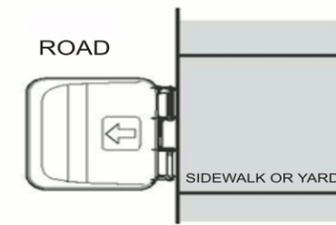

# 5 EASY STEPS

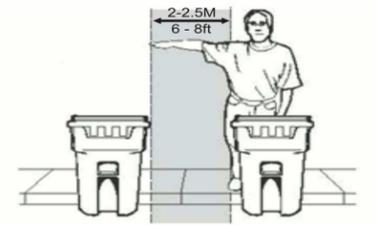

## When taking out the trash, remember to:

**Park it**

**Point it**

**Space it**

## Step One: **FILL IT**

Place **BAGGED WASTE ONLY** in your cart and close the lid. Loose litter can be easily misplaced and end up in yards, ditches, and on roadways. Make sure bags are not packed too tight or they may not fall out when the cart is tipped. Please ensure the lid on the cart is closed, otherwise it will not be picked up.

## Step Two: **PARK IT**

The automated arms on the collection truck need to clasp and lift the carts. If there is not enough space for the equipment to operate properly your waste **WILL NOT** be picked up. Place the carts on even ground at the street side with the wheels in the gutter, against the curb, or on the road side by **7:00am of your collection day**. Parking it the night before is encouraged. Please make sure not to block traffic.

## Step Three: **POINT IT**

Make sure the arrow on the lid points toward the center of the road. (Wheels on the curb or ditch side)

## Step Four: **SPACE IT**

Leave at least **6-8 feet (NEW\*)** of space between your cart and other objects such as parked cars, power poles, utility boxes, fences etc. This will allow the truck enough space to collect the carts safely.

## Step Five: **STORE IT**

Pull your empty cart back onto your property by 9:00 p.m. on your collection day and store in a shaded area when possible.

**Any Questions call 780.826.3951 ext. 9323**
