

What is accepted for recycling or disposal and where?

Waste Transfer Stations:

RECYCLING

paint ~ electronics ~ tires ~ glass ~ batteries
paper ~ cardboard ~ metal ~ plastics
agricultural plastics ~ propane tanks ~ used oil
concrete ~ clean clay fill ~ compost (ONLY
leaves, grass clippings, flowers, vegetable and
fruit scraps)

DISPOSAL

bagged household waste ~ wood
vinyl siding/shingles ~ drywall ~ furniture

Community Bin Sites:

RECYCLING

compost ~ paper ~ cardboard ~ glass ~ plastics

Accepted at the Bin Sites located at North Shore Heights,
Moose Lake Meadows and Cherry Ridge

DISPOSAL

bagged household waste

The M.D. provides residents with access to seven Waste Transfer Stations/Landfills. Because of their compact size, Community Bin Sites are for resident use only. Residents with trucks and small trailers are the most common users. Currently there are approximately 40 Bin Sites in various locations throughout the M.D.

RECYCLING SERVICES

Agricultural Plastics
Electronics
Tires
Paint
Other Recyclables

Electronics

Electronic components dropped off at the Transfer Stations are broken down, or disassembled for manufacturing into new products.

WHAT IS ACCEPTED

televisions ~ computers ~ laptops ~ servers
keyboards ~ mouses ~ cables ~ speakers
printers ~ photocopiers ~ fax machines
cell phones ~ smart phones ~ chargers
telephones ~ cable/satellite receivers
VCR/DVD/CD Players

Agricultural plastics

FREE recycling bags are available at all M.D. waste transfer stations. CLEAN plastics MUST be bagged using only the bags provided by the M.D.

Burning twine and other agricultural plastics is illegal and dangerous to both human health and the environment.

WHAT IS ACCEPTED

bale twine ~ bale wrap ~ silage wrap
bale netting ~ grain bags

WHAT IS NOT ACCEPTED

dirt ~ manure ~ hay ~ grass ~ garbage

Other Recyclables

WHAT IS ACCEPTED

plastics (empty and rinsed with lids discarded)
glass (empty and clean with lids discarded)
metals (cleaned aluminum cans, etc.)
paper ~ cardboard (flattened)

Paint

Leftover latex paint is recycled into new latex paint. Oil-based paint is used as a fuel source while spray paint cans and paint containers are recycled into metal and plastic products.

WHAT IS ACCEPTED

latex interior and exterior paint ~ primers and undercoats ~ wood finishing ~ oil-based paint
aerosol paint cans ~ empty paint containers

Tires

All vehicle tires, as well as construction, industrial & off-road tires are recycled right here in Alberta and made into innovative products such as playground surfacing, roofing shingles and sidewalk blocks.
